Acknowledgements

I'd like to thank my teachers from Clevered, for helping me throughout the internship so far. Thanks to them for being very approachable, I've been able to clear my doubts and ask for help with my project.I would also like to give my thanks to Mr.Ken Kahn for the listening and speaking blocks.

About Me..

My name is Fazil Tafseer. I am 11 years old, in year 7 and I am from India.I live in Dubai, U.A.E and I study in the Winchester School – Jebel Ali.

I have earned one Rockstar badge

About My Internship with Clevered..

My internship with clevered has been going quite well for the past few sessions since all my doubts have been cleared and I have completed my project thanks to Ms.Mani for helping me make the project and I have enjoyed it alot.

About App..

My app is a AI chat bot that informs the user about chocolates and their benefits, which most people don't even know that chocolates other than dark chocolate have benefits. This project works on the basis of speech recognition . First it will introduce itself, then the user will have to say the type of chocolate, after you say the type of chocolate it will tell you the benefits of that particular chocolate.
